

MOHAMMAD ABUESSA

Amman, Jordan | mohammedAbuess1@outlook.com | +962796486352  

Summary

As an aspiring Full-stack Developer, I am eager to embark on my career journey with a focus on Node.js and React.js. Equipped with a solid understanding of web development fundamentals, I am committed to learning and growing in this dynamic field. Passionate about creating user-friendly applications, I am ready to contribute my skills, collaborate with teams, and take on new challenges to build a successful career in the industry.

Projects

All Projects Source Code is uploaded in GitHub

[JoinMe: -](#)

A React social media website for sharing images, allowing easy image uploads and saving liked images. Sign-up with Gmail.

[Simon Game:](#)

Recreated the Simon Game using JavaScript, HTML5, CSS3, and audio integration. Demonstrated proficiency in web technologies and user-friendly app development.

[Root academy:](#)

I spearheaded an advanced Learning Management System (LMS) using HTML5, CSS3, JavaScript, and React. It offers interactive features, multimedia support, and a seamless UI for cutting-edge online learning.
